INTRODUCTORY REMARKS

ON THE

EXTERNAL COMMERCE OF THE BOMBAY PRESIDENCY,

FOR THE YEAR 1858-59, ENDING THE 30TH APRIL, 1859.

[*Prepared as per Instructions from Government, No. 1059, dated the 31st March 1856, Paragraph 4.*]

---

1. In the hope of facilitating the reader in turning over at once to the several Statements in which he may be particularly interested, and from which he may be desirous of obtaining information, I shall divide this Report into Four Parts, viz. :—

Parts I. and II. will be devoted solely to matters relating to the Port of Bombay.

Part III. will be devoted to matters relating to such of the Continental Ports of the Bombay Presidency as may have any Trade with Foreign Ports, or with any Indian Ports not subject to the Bombay Presidency.

N.B.—I shall take no notice whatever of Petty Continental Ports of the Bombay Presidency, which only carry on trade with other Government Ports situated within the Bombay Presidency.

Part IV. will be devoted to matters relating to Kurrachee in Scinde.

N.B.—Kurrachee is not in any way under the control of the Bombay Customs Commissioner, and hence this Part will merely consist of a printed version of such manuscript statements as may be received from Kurrachee.

PART I.

2. I shall commence then with a few remarks on the Port of Bombay.

93. It will be observed that in the year under review there has been a decrease in the Shipping; being, in respect to *Arrivals*, a decrease of 153 Vessels, or a decrease of about 20 per cent.; and in *Departures*, a decrease of 107 vessels, or about 15 per cent.

Steamer	1
Square-rigged	152
Square-rigged	107

94. This decrease may be chiefly attributed to an extraordinary increase in the previous year (1857-58), and thus making the year under review (1858-59) to contrast unfavourably with the preceding year.

95. Notwithstanding, however, this decrease during a great portion of the year, we had more shipping in the port than was required to meet the demands for freight; hence many vessels remained month after month in port earning nothing, while many left in ballast for other ports, in hopes of procuring freight.

96. In the year under review, a smaller number of European troops have arrived; again, a smaller quantity of pipes for the Vehar Water Works: and these circumstances may to some extent have caused a decrease in our shipping arrivals.

1858-59.

103. In paragraph 116 of my report for last year, I stated as follows :—

"The Trade of this Port and the number of Ships frequenting it have very much increased, "while the wharfage and landing accommodation for goods, which was always paltry and "totally insufficient for the Port, has not been enlarged or improved, and consequently our "merchants are unable to land or ship their goods with such ease and facility as is desirable; and "from the same causes also the Customs Department is unable to make proper arrangements "in respect to the separating of Dutiable Goods from Free Goods, and Imports from Exports; "neither has the Customs Department, in many cases, the means of weighing the several goods "brought for Import or Export. The confined state of the Custom House premises, while it "often calls forth a growl from the Merchants, is at the same time the cause of much anxiety "and embarrassment to the Customs Department."

104. The same remark is still equally applicable, as nothing at present has been done with the view of enlarging our premises. Two additional sheds, however, for the deposit of Goods, have been erected on the Town Wharf, which are likely to be of great service in protecting goods from being damaged by wet during the monsoon.

105. The Trade of Bombay still continues to increase; and it now may be considered, in a commercial point of view, as the Capital of India. The following tabular statement will tend to show the growing importance of the Port, as it is to be observed that the realisations at the Bombay Custom House, which only five years since were say Rs. 2,52,000 per month, or Rs. 30,24,000 per annum, now amount to Rs. 5,14,100 per month, or Rs. 61,69,200 per annum.

106. The rate of Freight for homeward cargoes has been ruinously low, and many ship-owners, it is to be feared, must have sustained heavy losses. The cotton trader, however, while thus enjoying the benefits of cheap freight, in conveying his Cotton from Bombay to England, was oppressed with heavy charges on account of freight from the continental ports (where the Cotton was originally shipped) to the Port of Bombay. In fact, the cost of conveying Cotton in country boats over a space not exceeding 300 miles, and landing it at Bombay, was in many cases much more than the cost for conveying the same cotton all the way from Bombay to England.

107. The most remarkable occurrence which took place in the year under review was the introduction of a new Customs Law (dated 14th March 1859, Act VII. of 1859), the chief features of which were:—

1*st.*—The abolition of differential duty on origin, and thus admitting foreign produce and manufactures on the same terms as those of the United Kingdom or any British Possession.

2*nd.*—The imposition of a 20 per cent. duty on luxuries.

3*rd.*—The imposition of a 10 per cent. duty on almost every other article, with the exception of Cotton Twist, upon which the duty was fixed at 5 per cent., instead of the former rate of 3½ on British, and 7 per cent. on Foreign.

108. The new rates of duty were introduced without any notice whatever to the mercantile community; in fact, the first intimation of the proposed alteration in the law was only received at Bombay on Sunday, the 13th March 1859, and the new law came into full operation the following morning at ten o'clock.

109. Under the new law the duty on Wines and Spirits, although much enhanced, is still much less than what is levied in England on similar items.

110. The duty on Beer and Porter, &c. has been much increased. Under the old rate the charge on each hogshead was only Rupees 2½, while under the new rate each hogshead of malt liquor has to pay Rupees 13, viz. 4 annas per gallon, or on say 52 gallons, which is the usual capacity of a hogshead.

111. The financial effect of the new law from the 14th March to the 30th April 1589,

CONTINENTAL PORTS

112. I shall next proceed to offer a few remarks on the several Government Ports situated within the limits of the Bombay Presidency, on the line of coast between Cambay on the North to Goa on the South.

113. There are altogether fifty Government Ports, but many of them merely carry on trade with other Government Ports within the Bombay Presidency; and I shall therefore purposely refrain from furnishing any figured statements or other detail regarding them.

12. Guzerat Division.
38. Konkun Division.

114. I have, however, prepared a separate statement for each of the Government Ports within the Bombay Presidency, which has any trade either with Foreign Ports or

with any Indian Ports beyond the limits of the Bombay Presidency. The several Ports are as follows:—

115. The amount of Import Customs duty received is very trifling. In a few Ports only do the realizations exceed Rupees 1,000 per annum, while in the others the receipts are much less than that sum.

116. The Import Customs duty is almost entirely levied on Cocoanuts, Betelnut, Cotton Seeds, Salt Fish, Oil-cake, and Timber.

117. The amount of Export Duty levied is, on the whole, a large item, but it chiefly consists of a fee levied, at the rates as per margin, on Salt exported from the Bombay Presidency to the Madras territory.

3 pies per Indian maund is levied on Exports to British Ports on the Malabar Coast.
1 anna per Indian maund is levied on Exports to Foreign Ports on the Malabar Coast.

118. The amount realized as Export Duty was levied on the following items, viz.:—

	Rs. a. p.
On Salt	89,834 15 0
„ Cotton Seeds	5,878 2 9
„ Grain	5,475 8 4
„ Timber	5,918 1 1
„ other items	6,919 12 0
Total....Rs.	1,14,026 7 2

119. The Trade of Government Ports in the Bombay Presidency with Foreign Ports appears to be gradually declining; in fact, the trade of the Port of Bombay is increasing and swallowing up the foreign trade of all of the petty Continental Ports. For instance, Rajapoor, Talooka Viziadroog, Zillah Rutnagherry, was formerly a port of great mercantile importance, and carried on an extensive trade with the Persian Gulf; in olden time also, the British

Government had a factory at Rajapoor; but now the Foreign Trade is almost extinguished, and the Port has dwindled down and is now of no importance.

120. The opening of the Railway from Bombay to the bottom of the Bhore Ghaut (on the line of country leading to Poona, Sholapoor, and other places in the Deccan) does not appear as yet to have had any appreciable effect on the port of Panwell. The traffic at that port appears to be very extensive, and a very large portion of the goods passing from Bombay to the Deccan, and *vice versâ*, are still conveyed *viâ* Panwell, instead of being carried by Rail.

121. The Great Indian Peninsula Railway have not hitherto induced many salt traders to convey their Salt by Railway; but, on the Bhore Ghaut being opened, and the line of road complete from Bombay to the Deccan, the whole of the Salt, now usually conveyed on pack bullocks, will eventually, it may be anticipated, be conveyed by rail. As a high rate of duty (viz. 12 annas per Indian maund) is levied at the time of removal of the salt from the Salt Works, and as, under the existing mode of conveyance, a long period elapses from the date of paying the duty until the realization in the Mofussil of the proceeds of the Salt, traders may, with reference even to the item of interest on capital expended in paying duty and purchasing Salt, find it to be advantageous to use the Railway, and thus obtain a more speedy return of money so invested than at present is practicable.

122. In conclusion, I would merely add that what we most stand in need of at the Port of Bombay are:—

1*st.*—Enlarged Custom House premises.
2*nd.*—Extended Wharfage, and also Quay accommodation with covered sheds.
3*rd.*—Warehouses on a very large scale.
4*th.*—Improved description of Cargo Boats.
5*th.*—Improved system of landing Cargo, so that it may be landed at fair and moderate rates, and without the great delays and obstacles which at present exist.
6*th.*—Docks for Ships requiring repairs, or requiring to be examined and over-hauled. At present there are only the Government Docks and the P. and O. Company's Docks, and these are frequently not available for the use of merchant ships.

N.B.—On the 14th March 1859 the rate of duty was enhanced under Act VII. of 1859, and thus two distinct rates of duty have been levied on the same article, *viz.* for 10½ months at the old rate, and for one and half month at the new rate. For the sake of perspicuity I have annexed separate Schedules of both the old and the new rates of duty, instead of entering in Columns 26 and 27, opposite to each item, the various rates of duty which have been levied, as such a course would have rendered the Return intricate and obscure.

N.B.—On the 14th March 1839 the rate of duty was enhanced under Act VII. of 1839, and thus two distinct rates of duty have been levied on the same article, viz. for 10½ months at the old rate, and for one and half month at the new rate. For the sake of perspicuity I have annexed separate Schedules of both the old and the new rates of duty, instead of entering in Columns 26 and 45, opposite to each Item, the various rates of duty which have been levied, as such a course would have rendered the Return intricate and obscure.

N.B.—On the 14th March 1859 the rate of duty was enhanced under Act VII. of 1859, and thus two distinct rates of duty have been levied on the same article, viz., for 10½ months at the old rate, and for one and a half month at the new rate. For the sake of perspicuity, I have annexed separate Schedules of both the old and the new rates of duty, instead of entering in Columns 20 and 43, opposite to each item, the various rates of duty which have been levied, as such a course would have rendered the Return intricate and obscure.

N.B.—On the 14th March 1859 the rate of duty was enhanced under Act VII. of 1859, and thus two distinct rates of duty have been levied on the same article, viz., for 10½ months at the old rate, and for one and a half month at the new rate. For the sake of perspicuity, I have annexed separate Schedules of both the old and the new rates of duty, instead of entering in Columns 26 and 43, opposite to each Item, the various rates of duty which have been levied, as such a course would have rendered the Return intricate and obscure.

N.B.—On the 14th March 1859 the rate of duty was enhanced under Act VII. of 1859, and thus two distinct rates of duty have been levied on the same article, viz. for 10½ months at the old rates, and for one and a half month at the new rate. For the sake of perspicuity, I have annexed separate Schedules of both the old and the new rates of duty, instead of entering in Columns 29 and 45, opposite to each item, the various rates of duty which have been levied, as such a course would have rendered the Return intricate and obscure.

N.B.—On the 14th March 1859 the rate of duty was enhanced under Act VII. of 1859, and thus two distinct rates of duty have been levied on the same article, viz., for 10½ months at the old rate, and for one and a half month at the new rate. For the sake of perspicuity, I have annexed separate Schedules of both the old and the new rates of duty, instead of entering in Columns 59 and 60, opposite to each Item, the various rates of duty which have been levied, as such a course would have rendered the Return intricate and obscure.

N.B.—On the 14th March 1859 the rate of duty was enhanced under Act VII. of 1859, and thus two distinct rates of duty have been levied on the same article, viz., for 10½ months at the old rate, and for one and a-half month at the new rate. For the sake of perspicuity, I have severed separate Schedules of both the old and the new rates of duty, instead of entering in Columns 26 and 27, opposite to each item, the various rates of duty which have been levied, as such a course would have rendered the Return intricate and obscure.

N.B.—On the 14th March 1859 the rate of duty was enhanced under Act VII. of 1859, and thus two distinct rates of duty have been levied on the same article, viz. for 10½ months at the old rate, and for one and a half month at the new rate. For the sake of perspicuity, I have annexed separate Schedules of both the old and the new rates of duty, instead of entering in Columns 20 and 45, opposite to each item, the various rates of duty which have been levied, as such a course would have rendered the Return intricate and obscure.

N.B.—On the 14th March 1839 the rate of duty was enhanced under Act VII. of 1839, and thus two distinct rates of duty have been levied on the same article, viz., for 10½ months at the old rate, and for one and a half month at the new rate. For the sake of perspicuity, I have annexed separate Schedules of both the old and the new rates of duty, instead of entering in Columns 26 and 43, opposite to each item, the various rates of duty which have been levied, as such a course would have rendered the Return intricate and obscure.

N.B.—On the 14th March 1839 the rate of duty was enhanced under Act VII. of 1839, and thus two distinct rates of duty have been levied on the same article, viz., for 10½ months at the old rate, and for one and a half month at the new rate. For the sake of perspicuity, I have annexed separate Schedules of both the old and the new rates of duty, instead of entering in Columns 26 and 43, opposite to each item, the various rates of duty which have been levied, as such a course would have rendered the Return intricate and obscure.

N.B.—On the 14th March 1859 the rate of duty was enhanced under Act VII. of 1859, and thus two distinct rates of duty have been levied on the same article, viz., for 10½ months at the old rate, and for one and a half months at the new rate. For the sake of perspicuity, I have annexed separate Schedules of both the old and the new rates of duty, instead of entering in Columns 26 and 28, opposite to each Item, the various rates of duty which have been levied, as such a course would have rendered the Return intricate and obscure.

N.B.—On the 14th March 1859 the rate of duty was enhanced under Act VII. of 1859, and there two distinct rates of duty have been levied on the same articles, viz., for 10½ months at the old rate, and for one and a half month at the new rate. For the sake of perspicuity, I have annexed separate Schedules of both the old and the new rates of duty, instead of entering in Columns 26 and 45, opposite to each item, the various rates of duty which have been levied, as such a course would have rendered the Return intricate and obscure.

N.B.—On the 14th March 1859 the rate of duty was enhanced under Act VII. of 1859, and thus two distinct rates of duty have been levied on the same article, viz., for 10½ months at the old rate, and for one and a half month at the new rate. For the sake of perspicuity, I have annexed separate Schedules of both the old and the new rates of duty, instead of entering in Columns 26 and 45, opposite to each Item, the various rates of duty which have been levied, as such a course would have rendered the Return intricate and obscure.

N.B.—On the 14th March 1859 the rate of duty was enhanced under Act VII. of 1859, and thus two distinct rates of duty have been levied on the same article, viz., for 10½ months at the old rate, and for one and a half month at the new rate. For the sake of perspicuity, I have annexed separate Schedules of both the old and the new rates of duty, instead of entering in Columns 26 and 43, opposite to each item, the various rates of duty which have been levied, as such a course would have rendered the Return intricate and obscure.

INTRODUCTORY REMARKS

ON THE

EXTERNAL COMMERCE OF THE BOMBAY PRESIDENCY,

FOR THE YEAR 1859-60, ENDING THE 30TH APRIL 1860.

[Prepared as per Instructions from Government, No. 1059, dated the 31st March 1856, Paragraph 5.]

1.—In my annual Bouquet for the year 1858-59 I reported in detail on the trade of Bombay, and as, during the year now under report, viz. 1859-60, the trade has been labouring under very high rates of duty, I shall frame my present report so as to convey exactly the same information as last year, and thus enable the reader without difficulty to compare the results of the two years, and then to draw his own conclusions.

2.—I might here mention that, up to the 14th March 1859 (say, until nearly the close of the year 1858-59), the rate of duty was 5 per cent., as a general rule, on value, with the exception of Tea, Coffee, Spices, and a few other items on which the duty was 10 per cent.; while the duty on Wine was 1 Rupee per gallon, and on Spirits Rs 1½ per gallon.

3.—Under Act VII. of 1859, which came into force on the 14th March 1859, the rate of duty, as a general rule, was raised to 10 per cent. (instead of 5 per cent., as formerly); while the duty on Tea, Coffee, Spices, Millinery, Grocery, Provisions, Perfumery, Jewellery, Plate, &c. was raised to 20 per cent. The duty on Wine being raised to Rs. 2 per imperial gallon; on Spirits to Rs. 3 per imperial gallon; and on Beer to 4 annas per imperial gallon.

4.—The aforesaid rates have, in some respects, been modified since the 20th February 1860, on which date all twenty per cent. duties were reduced to 10 per cent., except duty on Tobacco; while Wool, Raw Hides, Flax, Hemp, &c. were ordered to be admitted free of duty both on Import and Export. The duty on Saltpetre was raised to 2 Rs. per Indian maund.

Vide Act X. of 1860.

5.—In short, during the year 1858-59, the rate of Customs Duties may be said to have been 5 per cent., with a sprinkling of 10 per cent.; while in 1859-60, the year now under report, the rate of Customs Duties may be said to have been 10 per cent., with a sprinkling of 20 per cent.

6.—To begin then, I shall, the same as last year, divide this Report in four parts, viz:—

Parts I. and II. will be devoted solely to matters relating to the Port of Bombay.

Part III. will be devoted to matters relating to such of the Continental Ports of the Bombay Presidency as may have any trade with Foreign Ports, or with any Indian Ports not subject to the Bombay Presidency.

N.B.—I shall take no notice whatever of petty Continental Ports of the Bombay Presidency, which only carry on trade with other Government Ports situated within the Bombay Presidency.

Part IV. will be devoted to matters relating to Kurrachee in Scinde.

N.B.—Kurrachee is not in any way under the control of the Bombay Customs Commissioner, and hence this part will merely consist of a printed version of such manuscript statements as may be received from Kurrachee.

PARTS I. & II.

7.—I shall commence then with a few remarks on the Port of Bombay.

1859-60.

N.B.—The Nos. in Column 1 of the above statements of Increase and Decrease in Exports refer to the Nos. in Statement No. 6 Part 1.

95.—The quantity of Cotton imported at Bombay in 1859-60 was 28,66,31,320 lbs. and the value calculated at the rate of Rs. 123 per Bombay Candy of 784 lbs. avoirdupois, was Rs. 4,73,58,451. During the preceding year the quantity imported was 23,77,88,595 lbs. of the value of Rs. 4,27,04,917.

96.—The Cotton is for the most part exported to great Britain and China. The quantity exported in 1858-59 and 1859-60 was as follows :—

Names of Places.	1858-59.		1859-60.	
	Quantity.	Value.	Quantity.	Value.

Total..Rs.	20,69,15,874	3,95,75,639	32,12,64,017	5,30,57,170

97.—In my former reports I pointed out that the wharfage and landing accommodation for goods, which was always paltry and totally insufficient for the Port, has not been enlarged or improved, and consequently our merchants are unable to land or ship their goods with such ease and facility as is desirable; and from the same causes also the Customs Department is unable to make proper arrangements in respect to the separating of Dutiable Goods from Free Goods, and Imports from Exports; neither has the Customs Department, in many cases, the means of weighing the several goods brought for Import or Export.

98.—The same remark is I regret to state still applicable, as nothing has yet been done with the view of remedying the grievance above brought to notice.

99.—The following tabular statement shews the amount of collections month by month at the Bombay Custom House during the year under review as compared with the previous year.

Statement shewing the Amount of Collections in round numbers (omitting fractions of hundred Rupees) at the Town Custom House every month from May 1858 to April 1860.

100.—There has been a great increase of Customs revenue realized at the Bombay Custom House, but this is solely owing to the introduction of increased rates of duties as per Acts quoted in the margin.

Act VII. of 1859, dated 14th March 1859.
Act X. of 1860 came into force on the 18th February 1860.

101.—Under the old Customs Act, No. 1 of 1852, the rate of duty was 5 per cent., with a sprinkling of 10 per cent., while under the new Acts the rate of duty was 10 per cent., with a sprinkling of 20 per cent., and which latter was afterwards reduced to 10 per cent.

1. Piece Goods from England.
2. Metals from Ditto.
3. Twist from Ditto.

102.—Notwithstanding the enhanced rates of duty there has been a considerable increase in the quantity and value of imports in respect to the items noted in the margin.

103.—On the other hand, there has been a considerable decrease in the quantity and value of articles on which a Duty at the rate of 20 per cent. was imposed, viz. Sugar and Sugar Candy, Tea, Coffee, Spices, Oilman's Stores, and Tobacco.

104.—There was also a falling off in respect to Spirits, Wines, and Malt Liquor imported for Trade. The duty on Spirits was raised from Rs. 1½ to Rs. 3 per imperial gallon; on Wines from Rs. 1 to Rs. 2 per imperial gallon; and on Malt Liquor from 5 per cent. advalorem to 4 annas per imperial gallon; or, in other words, a hogshead of Beer formerly paid Rs. 2½ as duty, while now it pays Rs. 13.

105.—The results of the season shew that the sudden raising of the rate of Import Duty from a moderate to an exceedingly high rate, say from 5 per cent. to 20 per cent., is not a very politic measure, and that while it may cause distress to the honest trader it does not give a cor-

responding increase of revenue to Government, and in the end it becomes necessary to reduce the rate of duty.

106.—I think I may with safety affirm that few articles will bear a higher rate of duty than 10 per cent., and that, in respect to articles which are very valuable as compared with their bulk—for instance say Watches and Jewellery,—the lower the rate of duty the more revenue Government is likely to realize. A man whose conscience would not allow him to smuggle a watch on which there was only a 5 per cent. duty, might not entertain the same views and opinions if a duty of 20 per cent. was levied, and having once smuggled one article, he might be induced to continue the practice, and especially in respect to articles of little bulk and great value.

107.—In the Export of articles liable to duty, there was a decrease in the amount of collections at the Bombay Custom House to the extent of one lac of Rupees, chiefly owing to a great decline in exports of Seeds and Cashmere Shawls. The decrease is not attributable to any alteration in the Customs laws. The Export duty (viz. 3 per cent.) is trifling, besides which no alteration has been made in the new law in respect to the export duty on Seeds and Cashmere Shawls. The falling off, therefore, in these items is solely to be attributed to the usual fluctuations in trade.

108.—I would here mention, for the information of the reader, that, as a general rule, all Duty-free Articles have been entered at the value declared by the owner, while to certain articles a value has been fixed by the Custom House as follows:—

PART III.

CONTINENTAL PORTS.

109.—I shall next proceed to offer a few remarks on the several Government Ports situated within the limits of the Bombay Presidency, on the line of coast between Cambay on the North to Goa on the South.

110.—There are altogether fifty Government Ports, but many of them merely carry on trade with other Government Ports within the Bombay Presidency; and I shall therefore purposely refrain from furnishing any figured statements or other detail regarding them.

12. Guzerat Division.
38. Konkun Division.

111.—I have, however, prepared a separate statement for each of the Government Ports within the Bombay Presidency, which has any trade either with Foreign Ports, or with any Indian Ports beyond the limits of the Bombay Presidency. The several Ports are as follows:—

Nos.	Names of Ports.	1859-60. Amount of Import Customs received.	1859-60. Amount of Export Customs received.	Total Amount of Customs received.

112.—The amount of Import Customs duty received is very trifling. In a few Ports only do the realizations exceed Rs. 2,000 per annum, while in the others the receipts are much less than that sum.

113.—The Import Customs duty is almost entirely levied on Cocoanuts, Seeds, Timber, Salt and Salted fish.

114.—The amount of Export duty levied is, on the whole, a large item, but it chiefly consists of a fee levied, at the rates as per Margin, on Salt exported from the Bombay Presidency to the Madras territory.

3 pies per Indian Maund is levied on Exports to British Ports on the Malabar Coast.
1 anna per Indian Maund is levied on Export to Foreign Ports on the Malabar Coast.

115.—The amount realized as Export Duty was levied on the following items, viz:—

Goozerat Division.

	Rs.	a.	p.
Salt	4,994	10	3
Cotton Seeds	4,444	15	1
Grain	5,254	0	10
Timber	3,052	7	11
Other items	2,471	7	8
Total Rs....	20,217	9	9

Concan Division.

	Rs.	a.	p.
Salt	1,60,878	14	3
Grain	4,966	7	1
Timber	2,939	9	1
Other items	5,277	14	2
Total Rs.....	1,74,062	12	7

116.—There has been an increase in Collections on account of Imports at the Continental Ports, as compared with the previous year, and this is owing—*first*, to increased rates of duty; and *secondly*, to larger imports of Cocoanuts, Copra, Seeds, Salt, Provision, Stones, and Timber.

CONCLUSION.

117.—In conclusion I must again here repeat what I stated last year, viz. that what we most stand in need of at the Port of Bombay are—

1*st*.—Enlarged Custom House premises.

2*nd*.—Extended Wharfage, and also Quay accommodation with covered Sheds.

3*rd*.—Warehouses on a very large scale.

4*th*.—Improved description of Cargo Boats.

5*th*.—Improved system of landing Cargo, so that it may be landed at fair and moderate rates, and without the great delays and obstacles which at present exist.

6*th*.—Docks for Ships requiring repairs, or requiring to be examined and over-hauled. At present there are only the Government Docks and the P. and O. Company's Docks, and these are frequently not available for the use of merchant ships.
